

I may not remember those
first hugs, but I bet you do.

Happy Mother's Day

Honor a special MOM

**Every mother's wish is our wish —
to have her baby be
born healthy.**

For 75 years, the March of Dimes has been dedicated to protecting the health of our children. Today, we're working hard to find the causes and preventions for premature birth and birth defects, and to help ensure that more moms have full-term pregnancies and healthy babies.

This Mother's Day, honor your mom or a special mom in your life with [a donation](#) to help continue our lifesaving mission — for your children, for your children's children ... and generations to come.

"Each of my babies was born prematurely. My son, Connor, lost his fight.

I am grateful to have four healthy children at home with us. Without the work of the March of Dimes, I might not be able to say that. I'm passionate about supporting this amazing charity because I want to prevent other moms from going through the hardships I had to endure."

— Stacey Jamerson
Mother of Connor,
Colby, Sydney, Zoe
and Hunter
