

REIMAGINE REVOLUTIONIZE

Introducing the Performance Meeting Chair

We listen to our guests. We transformed their sleeping experience with our Heavenly® Bed. Now Westin is transforming their meeting experience with our Performance Meeting Chair.

More comfort. More convenience. More planners deciding that they wouldn't hold their meetings anywhere else.

FRESH INGENUITY BREAKS THE MOLD

Drawing on our innovative leadership and collaborative partnership with the Pratt Institute in Brooklyn, we challenged some of their most inventive minds to explore, to disrupt. To go beyond conventional wisdom to create a comfortable meeting chair that supports the Westin mission of ensuring our guests feel their very best. A competition held among design students yielded a revolutionary model by Ashley Thorfinnson. This dramatically different meeting chair looks like no other, featuring arms that appeal to guests as well as stackability that appeals to owners.

GUEST BENEFITS OF THE PERFORMANCE MEETING CHAIR

Enhanced cushioning on seat and back offer comfort and relaxation.

Ergonomic seat, contouring and arm design promote improved posture.

Unique storage solutions, like a laptop shelf and hook on back, ease stress.

CREATING A BETTER CHAIR MEANS CREATING A BETTER EXPERIENCE

Extensive research has shown that productivity flows when attendees are comfortable and relaxed. Feeling energized helps guests stay alert and engaged. We anticipate this performance chair will take its place alongside our Heavenly® Bed as an innovation that gives Westin a clear competitive advantage.

NEW FEATURES AND VERSATILITY
